A changing vision for legal services

As part of the 40 under Forty Awards Evening Iberian Lawyer will hold the Iberian Legal Summit - a debate for a specially invited group of General Counsel and law firm leaders.

This select group will share their experiences of the current challenges facing legal services - exploring their lessons for the future and outlining their vision for the delivery of legal services in the years ahead.

September 26th, Madrid

While participants at the last Summit, held in Barcelona in 2011, debated the extent to which we are experiencing an evolution or revolution in legal services, today it is clear that we are seeing structural change more than changes in the economic cycle.

The Summit will examine the direct and indirect consequences this is having on the role of General Counsel and the relations with their external legal advisers. Please turn over for participants list.
